Bidding a fond farewell to Tim Walker is Charlie Hartley, speaking on behalf of the club. Tim has been offered a new "Dream Job", and will be leaving the area. Best of luck to Tim, and thank you for all your efforts toward Rotary and Wellness House.

### Significant Achievement Award..

So far, our Significant Achievement Award From Rotary International has been reported in The Tribune Plus. Thank you to Rita DuChateau for submitting the article. The award is the highest award that a local Rotary Club can achieve. It recognizes a club for best addressing the needs of its community. Our Rotary Run for Wellness inspired the application.

### Congrats To Us...

Our club is on a roll with awards. At the District Conference in Fontana, Wisconsin, President Roger Herring announced we won a First Place in Community Achievement, a Second Place in Advertising/Publicity, and a First Place for the Expo exhibit of The Solar Oven. Congratulations to us!

### RI Polio Eradication Update...

Jenny Horton, a nurse and member of the Rotary Club of Kenmore, Queensland, Australia, helped mark the 10th anniversary of the Stop Transmission of Polio (STOP) program, established by the World Health Organization, UNICEF, and the U.S. Centers for Disease Control and Prevention (CDC). CDC hosted a celebration at its headquarters in Atlanta. Attendees included Horton and other STOP team members, representatives from Rotary International and the World Health Organization, and current and former CDC staff.

STOP has taken Horton to Botswana, Ethiopia (twice), Nigeria, and Pakistan. She is one of more than 1,000 volunteer team members who have traveled to 60 countries to provide technical support for polio eradication since 1999.

The volunteers conduct field surveillance, train local health care pro-

viders in surveillance techniques, and help plan and monitor polio and measles vaccination campaigns. STOP also sends volunteers to support UNICEF in social mobilization, advocacy, and communications for immunization efforts in Africa and Asia. CDC's largest global health training program, STOP has received US\$681,900 in grants from PolioPlus for volunteers' stipends.

"When the STOP program was established, some 7,000 cases of polio were reported, and more than 25 countries were polio endemic," said Robert Hall, Zone 34 coordinator for Rotary's US\$200 Million Challenge and past governor of District 6900 (Georgia). "A decade later, only four countries remain polio endemic and, due to improvements in polio eradication strategies, we have more confidence than ever that polio can be eradicated in its remaining strongholds."

### Greeters...

Today; Earl & Keith Larson.

June 5th; Gary Lipinski & Mike Liss.

June 12th; John Liu & John Lowry.
